

Energy Savings Opportunity Scheme (ESOS) Phase 2

The Energy Savings Opportunity Scheme (ESOS) Phase 2 is a mandatory energy assessment scheme for organisations in the UK to identify cost-effective energy saving measures. Centrica Business Solutions has partnered with WSP to help organisations meet the ESOS Phase 2 compliance deadline in 2019.

What

- ESOS Phase 2 affects energy usage in all buildings, industrial processes, and transport
- ESOS Phase 2 compliance is mandatory for all large organisations in the UK
- Failure to achieve ESOS Phase 2 compliance can result in substantial financial penalties

Who

- ESOS Phase 2 applies to you if:
- You employ 250+ people
 - Your annual turnover is €50m+

When

- If you meet ESOS Phase 2 criteria on 31st December 2018 you will have to comply
- You have until 5th December 2019 to achieve ESOS Phase 2 compliance

How to comply with ESOS Phase 2

- Commit to auditing your organisations energy usage every four years
 - Complete your energy audit using a qualified assessor
- Install sub-metering systems to identify energy usage data by end-use

Centrica Business Solutions' proposition

Panoramic Power from Centrica Business Solutions delivers detailed energy usage data to reveal actionable energy insights

Partnership

Centrica Business Solutions together with WSP offer a comprehensive service to achieve ESOS compliance

WSP Proposition

WSP offers advisory and design for your energy estate, delivering process optimisation and site efficiencies

The benefits for your business

- Reduce waste and cost with a better energy infrastructure
- Improve energy usage by updating your current technologies
- Increase value gained from assets with distributed energy

10 steps to ESOS Phase 2

1

Audit – Act now

You must be capturing energy data no later than 5th December 2018

2

Audit Further

Include all subsidiaries for a comprehensively accurate energy overview to comply

3

Audit Everything

You must achieve 90% coverage of your energy usage to comply

4

Assessor Selection

Ensure that your lead energy assessment partner is Government approved

5

Measure Clever

Utilise smart technology to reduce the risk and cost of manual data collection

6

Information Central

Consolidate your energy information in a central platform to make analysis easier

7

Share Goals

Divide responsibility for ESOS Phase 2 compliance across departments to increase coverage

8

Adopt ESOS Phase 2

Build ESOS Phase 2 into your existing processes so it doesn't add to your workload

9

Save Sooner

Apply energy saving measures as soon as you can to see a return on investment

10

Speak Up

Share your energy auditing results at board level to increase energy saving investment

Centrica Business Solutions has the energy insights, technologies and services to make your organisation ESOS Phase 2 compliant and more. We should talk about making energy compliance work for you – now and into the future.
